Encyclopedia of ANTHROPOLOGY

Library Journal Best Reference 2005

Edited by

H. James Birx, *Canisius College, SUNY Geneseo*

Foreword by Birute Mary F. Galdikas

FIVE-VOLUME SET

"No general, multivolume encyclopedia has offered a broad overview of the subject. . . . there has been nothing quite like this new *Encyclopedia of Anthropology* from SAGE. . . . The volumes are beautiful and a pleasure to use and read. . . . This source has no peer or competition that can be readily found. All academic and large public libraries with an interest in anthropology should buy it."

—BOOKLIST

"Thorough coverage is given to a wide range of topics in physical anthropology, archaeology, cultural anthropology, anthropological linguistics, and applied anthropology. More than 250 respected anthropologists and scholars have contributed over 1000 A-to-Z articles. . . . This balanced and user-friendly resource will be a good starting point for basic anthropological research. Highly recommended for academic libraries with anthropology collections and large public libraries where there is interest in anthropology."

—LIBRARY JOURNAL

"SAGE Reference delivers a unique five-volume set with its recent publication of the *Encyclopedia of Anthropology*. [This] is the first encyclopedic work that attempts to represent and integrate the various and diverse areas of physical/biological anthropology, archaeology, cultural/social anthropology, linguistics, and applied anthropology. This is a tall order but this set does an admirable job."

Encyclopedia of WAR & American Society

Edited by

Peter Karsten

University of Pittsburgh

THREE-VOLUME SET

"While librarians have numerous choices for materials covering warfare and society, there are not as many that cover warfare and its impact on society as broadly or as well as Karsten's. If a library is looking to add to its coverage of wars and their impact or fill a gap, this is an excellent choice. The primary documents and the work's breadth will ensure that a variety of readers find it useful and engaging."

—LIBRARY JOURNAL

"Editor Karsten, four associate editors, and 153 other expert contributors have produced an excellent reference work. . . . Entries are well written and easy to read, and each includes a selected bibliography, suggestions for further reading, and a list of related entries within the set."

—BOOKLIST

"This new illustrated history reference work focuses on the past 100 years, since that is the period for wars that have most shaped the present environment in the US. When something is hand-made, special attention is paid, not only to requirements, but to tastes. Any woolen muffler can keep your neck warm, but a certain shade of red brings out the glow in your cheeks.

Handmade implies a human touch — someone at the other end of an interaction with a caring interest in its positive outcome.

WHY HANDMADE IS BETTER

ESPECIALLY WHEN IT COMES TO BOOKSELLING

We believe in a handmade approach to bookselling. It's an attitude that puts you first. Each order is crafted to make sure it responds exactly to your specifications. Need a Standing or Continuation order for an unusual title? We'll build a solution that guarantees you will remain up-to-date. Have Reserve Rush orders every semester? We'll take all your orders and make sure the books are in your library before the first student approaches the desk.

Handmade means it's not about us, it's all about you: your budget, your resources, your time. Tired of placing a lot of orders directly because your jobber

can't or won't supply them? We never decline an order. Frustrated with turnaround times and endless claims? Our cycle time will cut your claims dramatically. We apply a ruthless approach to orders that turns around over 95% in fourteen working days. You may never claim another order.

If you want to experience our handmade approach, or just want to know more, call John Perry Smith at (800) 876-4636. He'll be glad to discuss how we can handcraft a plan for your library. Or visit us online at www.totalinformation.com.

Jobbers serving libraries with any book in print.

**"I think I've finally gotten the
serials list back into shape."**

**"How about the
standing orders?"**

**"They've always been
with Midwest. Never had
a problem there!"**

For over forty years, Midwest Library Service has been quietly relieving librarians of the problems often associated with book and standing order purchasing.

Our Continuation & Standing Order Service is based on intensive, personal contact with thousands of publishers to ensure prompt and complete fulfillment on series, sets, annuals, yearbooks, and proceedings. It is our goal to take the guesswork and anxiety out of continuations and standing order fulfillment through timely shipments and thorough reporting.

Using sophisticated tracking programs, Midwest monitors pre-publication information and shipping schedules instead of relying on publisher-based systems. We will customize the fulfillment frequencies on annuals and yearbooks on a title-by-title basis. In the case of a delayed or missing edition, we contact the publisher by telephone to ensure fulfillment. Of course, you have access to historical fill data whenever needed. And to make matters even easier for you, we will assist in the seamless transfer of standing orders placed previously with publishers or other booksellers.

In an unstable time of publisher upheavals and understaffed, harried libraries, isn't it good to have a vendor you can count on?

If you are not completely satisfied with your current vendor, look to Midwest for all your book buying needs.

For more information, contact a Standing Order specialist at 800-325-8833 or standingorders@midwestls.com.
